Directions: Have students practice matching the sign to its proper definition. Can be done as a pre-assessment of existing knowledge or as a reinforcement to other lessons involving traffic signs.

1. **STOP**
   - Stop, scan left-right-left for crossing traffic, and yield the right of way.

2. **Yield**
   - Slow down, scan for cross traffic, yield the right of way and stop if it is not clear.

3. **No Enter**
   - This is a one way road: do not go against the direction of traffic.

4. **Arrows on the left**
   - Road divides, stay to the right of the divide.

5. **Left Only**
   - This lane is only for turning left.

6. **No Turn**
   - Right turn not allowed.

7. **R x R**
   - Railroad tracks ahead. Slow down and scan for trains.

8. **Left Arrow**
   - Sharp left curve (not turn) ahead.

9. **Construction Ahead**
   - People working/construction ahead. Slow down and use caution.

10. **Intersection**
    - Intersection ahead.

11. **Merging Traffic**
    - Traffic is merging into your lane from the right.

12. **One Way**
    - One way road. Do not go against the direction of this arrow.

13. **Lane Ends**
    - Right lane ends; move into the next lane on your left.
School zone ahead. Slow down and use caution. Pedestrians have the right of way.

Two-way road ahead. Stay on the right side, and go in the same direction as other traffic going in your direction.
