

Ongoing Support at Gold Level

What is Ongoing Support?

At the Gold level, an organization — PTA, PTO, School Green Team, School Wellness Council, etc. — must support the program. The organization must provide a letter with a description of their ongoing support of the SRTS program and how the program will continue into the future.

Provide On-going Support

The supporting organization should include in a letter:

- How they have supported the program in the past.
- How they intend to sustain and grow the program in the future.
- How and what they have financed for the program and will finance in the future.
- How and what others have financed for the program and will finance in the future.
- Any ongoing partnerships that help sustain the program.
- Any future partnerships that will help sustain the program.
