## School Description

### Riverside Elementary School Description

Riverside Elementary School is located at 58 Riverside Drive, Princeton, New Jersey 08540. For the 2015-2016 school year, there were 286 students in grades Pre-K-5 (20 Pre-K, 42 Kindergarten, 43 First, 48 Second, 44 Third, 30 Fourth, 40 Fifth, and 19 ungraded). The school day runs from 8:30am to 3:00pm.

### Working Groups and Partnerships

Organization	Role/ Responsibility	Contact
Municipality of Princeton	Community Partner	Deanna Stockton Municipal Engineer 609-921-7077x1138 <a href="mailto:dstockton@princetonnj.gov">dstockton@princetonnj.gov</a>
Riverside Elementary School	Community Partner	Sarah Gooen-Chen School Nurse 609.806.4263 <a href="mailto:sarah_gooen-chen@princetonk12.org">sarah_gooen-chen@princetonk12.org</a>
Princeton Police Department	Community Partner	Sgt. Thomas Murray Princeton Police Traffic Safety <a href="mailto:tmurray@princetonnj.gov">tmurray@princetonnj.gov</a>
Greater Mercer Transportation Management Association	Key Partner	Jerry Foster Transportation Safety Educator 609.452.1491 x 227 <a href="mailto:jfoster@gmtma.org">jfoster@gmtma.org</a>
Riverside Elementary School	Community Partner	Paul Chapin Principal 609.806.4260 <a href="mailto:Paul_Chapin@princetonk12.org">Paul_Chapin@princetonk12.org</a>
Greater Mercer Transportation Management Association	Key Partner	Ian Henderson Sustainable Transportation Coordinator 609.452.1491 x 237 <a href="mailto:ihenderson@gmail.com">ihenderson@gmail.com</a>
Voorhees Transportation Center	Key Partner	Sean Meehan Project Manager 848.932.2860 <a href="mailto:smeehan@ejb.rutgers.edu">smeehan@ejb.rutgers.edu</a>

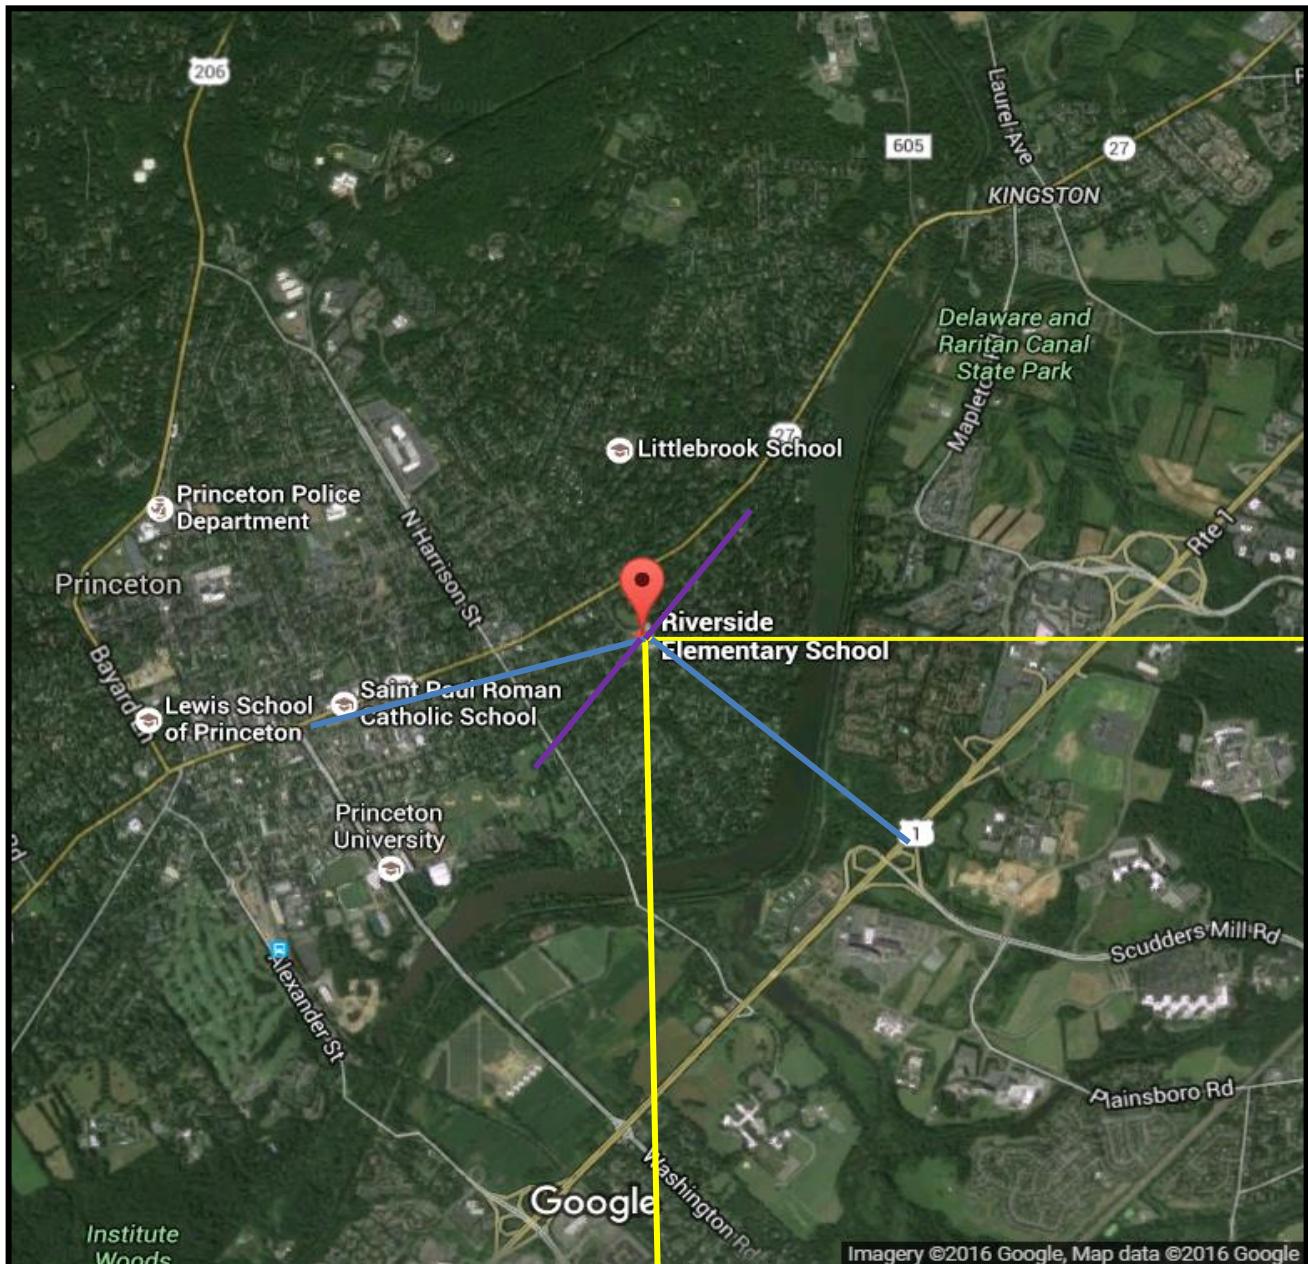

### Partnerships

- Princeton Police hosts annual community bike rodeos
- Princeton government assisted in Riverside ES Walk to School Day 2015

- Princeton Bicycle and Pedestrian Advisory Committee
- Princeton YMCA
- Greater Mercer TMA
- West Windsor Bicycle Pedestrian Alliance

### School Neighborhood

Riverside Elementary is off of Riverside Drive tucked in a residential neighborhood near Princeton University. It is immediately surrounded by residences and borders Carnegie Lake and accompanying tow paths. Route 27 (Nassau St) is a primary route for commuters entering Princeton.

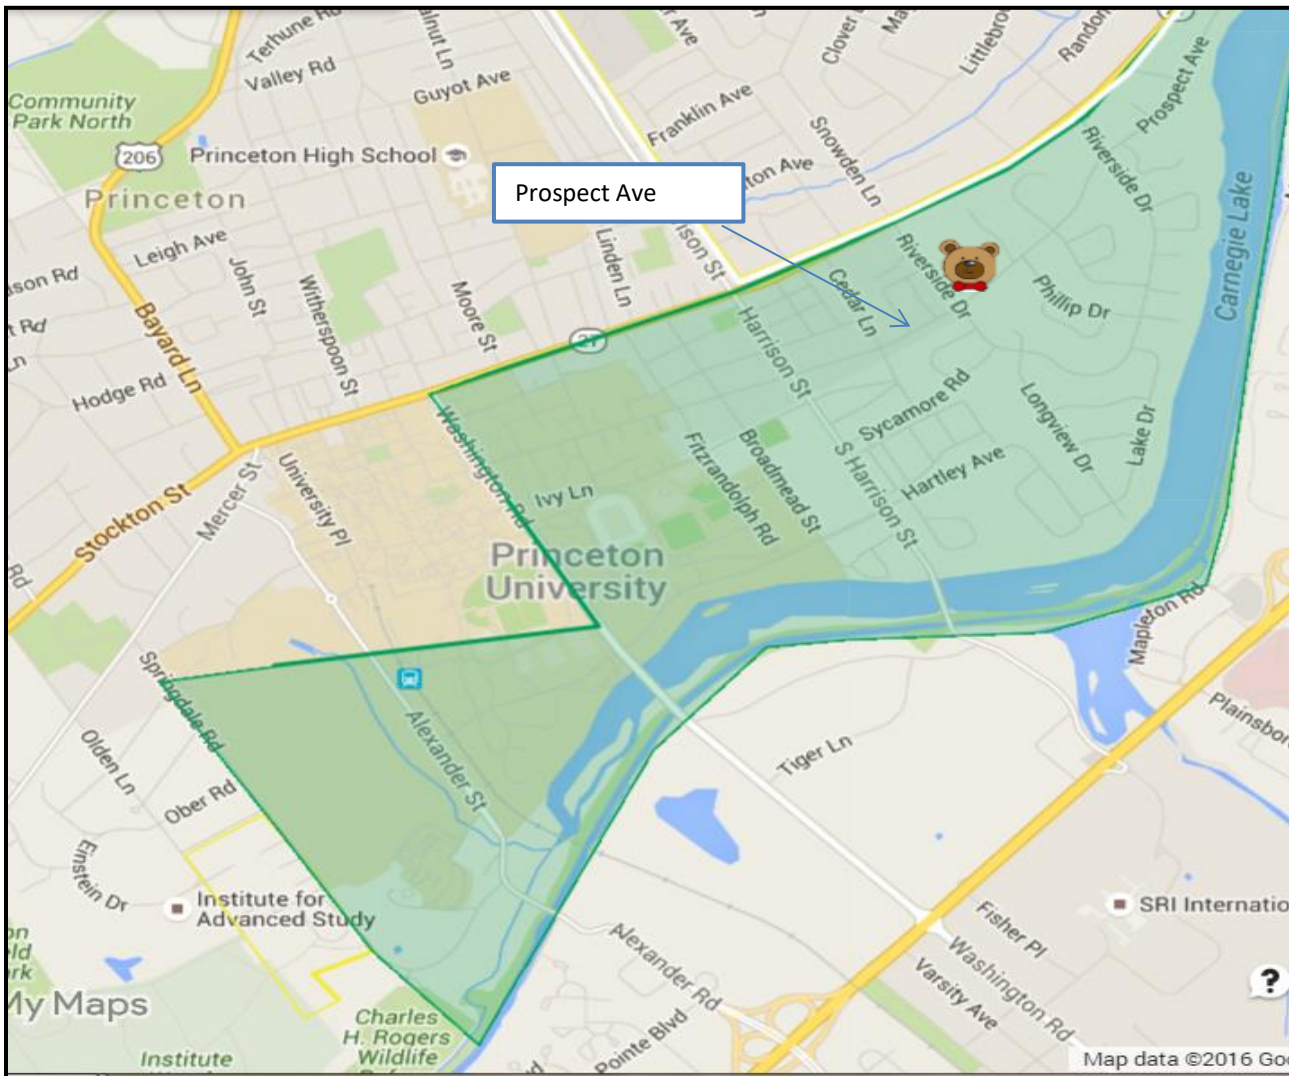

Yellow lines= 2 miles, Blue= 1 mile, Purple= ½ mile. The school is located at 58 Riverside Drive, Princeton, New Jersey 08540.

Riverside Elementary School and immediate vicinity. Driver horseshoe entrance at “E” and exit “X.” Crossing Guard location are marked by yellow vests.

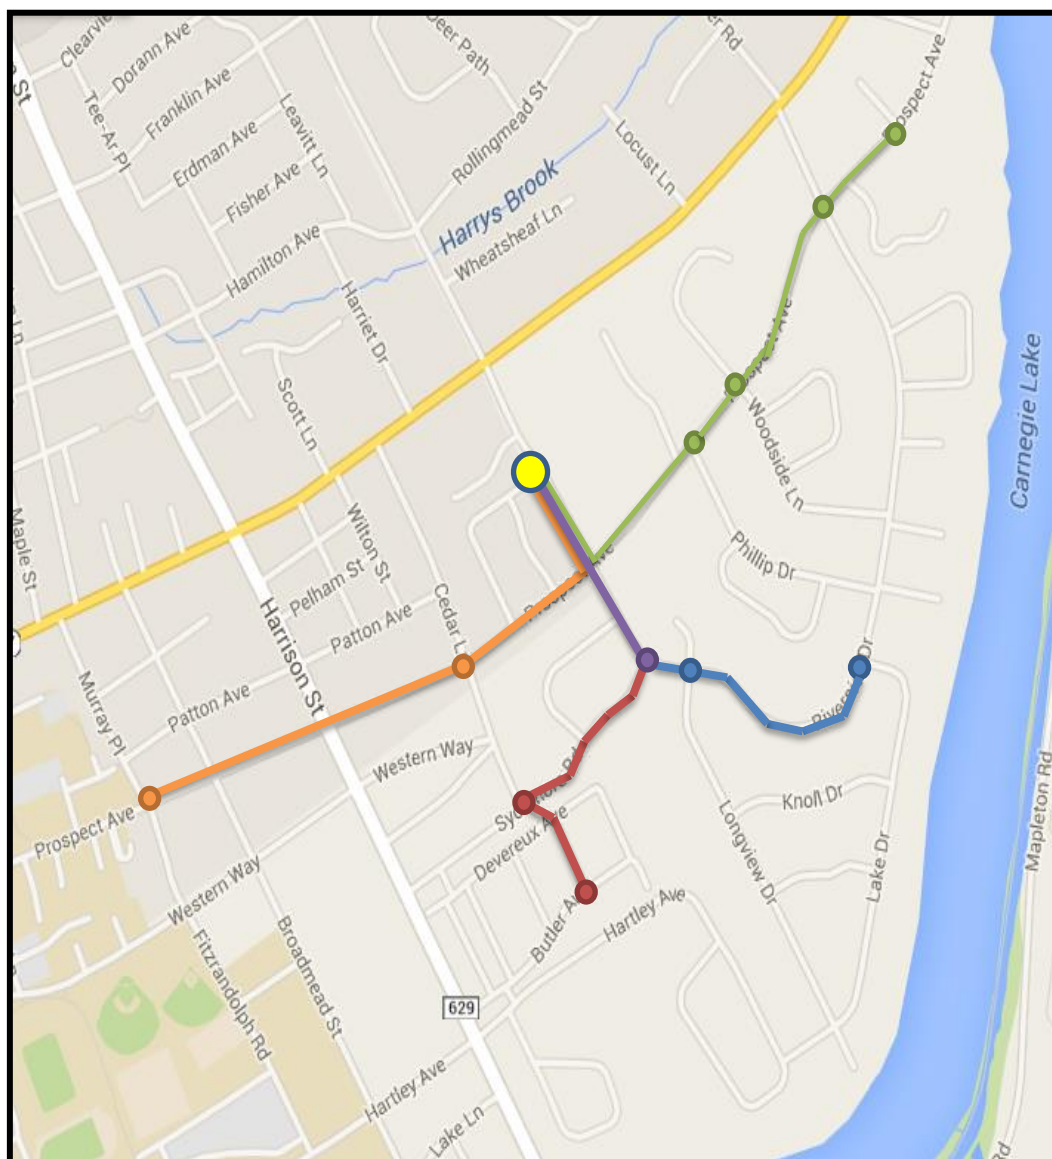

## Riverside Elementary Catchment Area

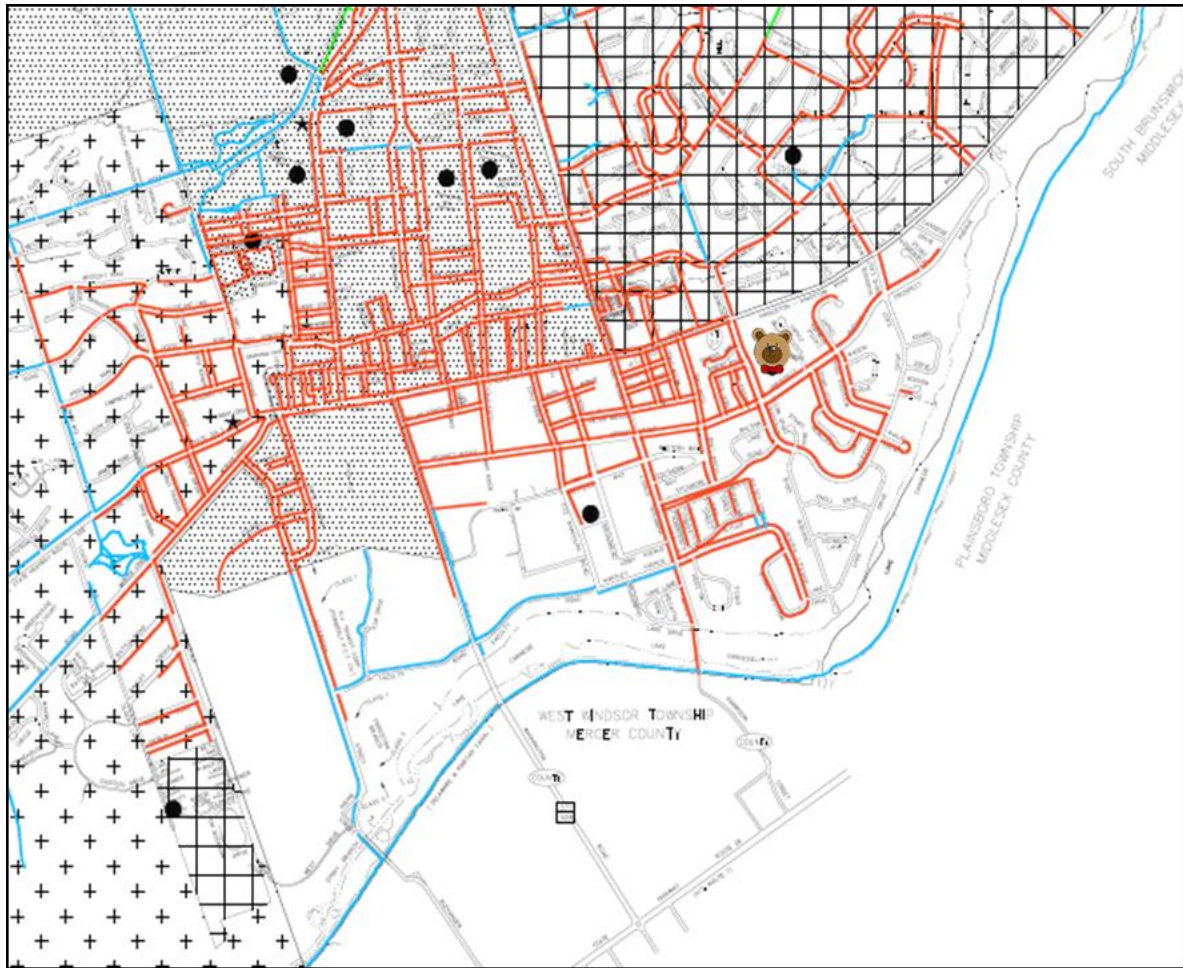

Catchment area is the green polygon above. Riverside is represented by the bear mascot icon.

## Walking School Bus Routes

Prepared for May 2015 Walk to School Event. As of May 2016, Blue and Green Routes used for weekly walks.

## Travel Routes

Riverside Elementary is represented by the bear mascot icon.

### Arrival and Dismissal

- The school day runs from 8:30 a.m. to 3:00 p.m.
- Students may enter the school at 8:20 a.m.
- Single-file drop-off and pick-up is permitted in the fire lane.
- Students wait to be picked up at the end of the Fire Lane (outside of the gym doors).
- Cars continue in a straight line to exit. Staff is stationed to assist.
- Walkers should enter the main entrance on Riverside Drive.
- Children riding to school should dismount upon entering or leaving school grounds.
- Pre-K and Kindergarten students are picked up by parents in the cafeteria. Parents park on Riverside Drive.
- All students grades 1-5 who walk home will exit through the flag pole main doors.

### Crossing Guards

- Riverside Drive and Prospect Ave, Harrison and Prospect Ave
- School crossing guards are on duty from 8:00 a.m. - 8:30 a.m. and from 2:50 p.m. - 3:20 p.m. to assist children.

- The Princeton Township Police Department determines the placement of crossing guards for Riverside School.
- According to the 2015-2018 Princeton Strategic Plan, crossing guard hiring and placement will be removed from the Traffic Unit of the Princeton Police Department and moved to the Public Information Officer position

### **Current Safe Routes to School Programming**

- As of March 2016, Riverside ES has achieved Silver Safe Routes to School Recognition -Class Assemblies, Walk to School Day, bike racks, travel tallies
- Princeton received Gold municipal recognition in the 2016 SRTS Recognition program.
- Promoter of Walking School Bus App, two current walking groups

### **Safe Routes to School-Disabled Student Inclusion**

- Maintenance of current ADA-compliant pads and addition of pads to sidewalks to enable access during Walk to School events
- Adjust safety presentation styles for those with ADHD and other learning obstacles
- During schoolwide walk audit events, tailor routes for special needs students
- Train the Trainers approach- Pass along safety education to the aides who have to tailor educational needs based on individual student plans
- Look into funding sources for purchasing specially-tailored bicycles for disabled.

### **Parking**

There are a handful of visitor parking spots in the horseshoe parking lot. If filled, you may also park in the parking lot on the side of the school.

### **School Policies**

Transportation to and from school will be provided for elementary students who live more than two miles from school or if a route has been designated as hazardous. For further information, call the Transportation Coordinator, Marilyn Kothe, at 806-4209.

The current wellness policy endorses regular physical activity (but doesn't explicitly mention biking/walking to school), and the transportation policy doesn't explicitly encourage biking/walking to school. The district should consider adding explicit encouragement for biking/walking to school to their policies.

[http://www.princetonk12.org/board/board\\_policies/operations/8600%20Transportation.pdf](http://www.princetonk12.org/board/board_policies/operations/8600%20Transportation.pdf)

### **Walk/ Bike Barriers and Opportunities**

#### **Identification of Problem Areas**

There have been informal walk and bike audits around the school to identify both infrastructure improvements to assist current walkers and places to create new spaces for future walking and biking to school.

April 2016 Walkability Audit

### Problem Areas and Concerns

Overall, the sidewalk connectivity itself is extensive around the school. However, the majority of students are still being driven to school as determined by Travel Tally data. Despite the walkable quality of the neighborhood, students are not using the current infrastructure as often as possible. First, the current facilities should be improved or upgraded. Then, the school can continue to inspire new walkers through new connectivity and expanded Safe Routes encouragement activities.

Prospect Ave has had three pedestrian crashes within the last 11 years.

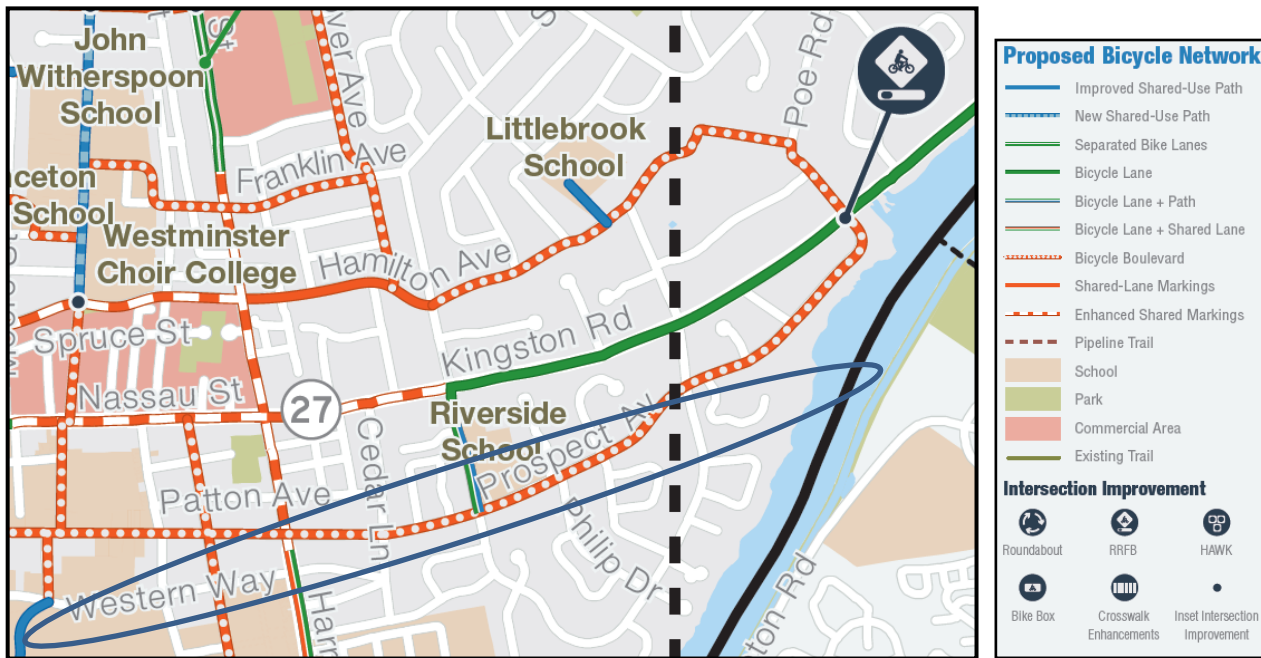

Plan4Safety pedestrian crashes 2005-2015 in the immediate area. Riverside is noted by the bear mascot icon.

Prospect Avenue, a main road that is used to access the school, has been the site of three pedestrian crashes. Safety on this street should be addressed.

Greater Mercer TMA agrees with the Princeton Master Bicycle Plan’s implementation of a Bicycle Boulevard on Prospect Avenue. It specifically calls for a “traffic calmed, residential street that prioritizes bicycle movement and creates a comfortable environment for children to bike to Riverside School.”<sup>1</sup>

*Proposed in Princeton Plan*

Source: Princeton Engineering

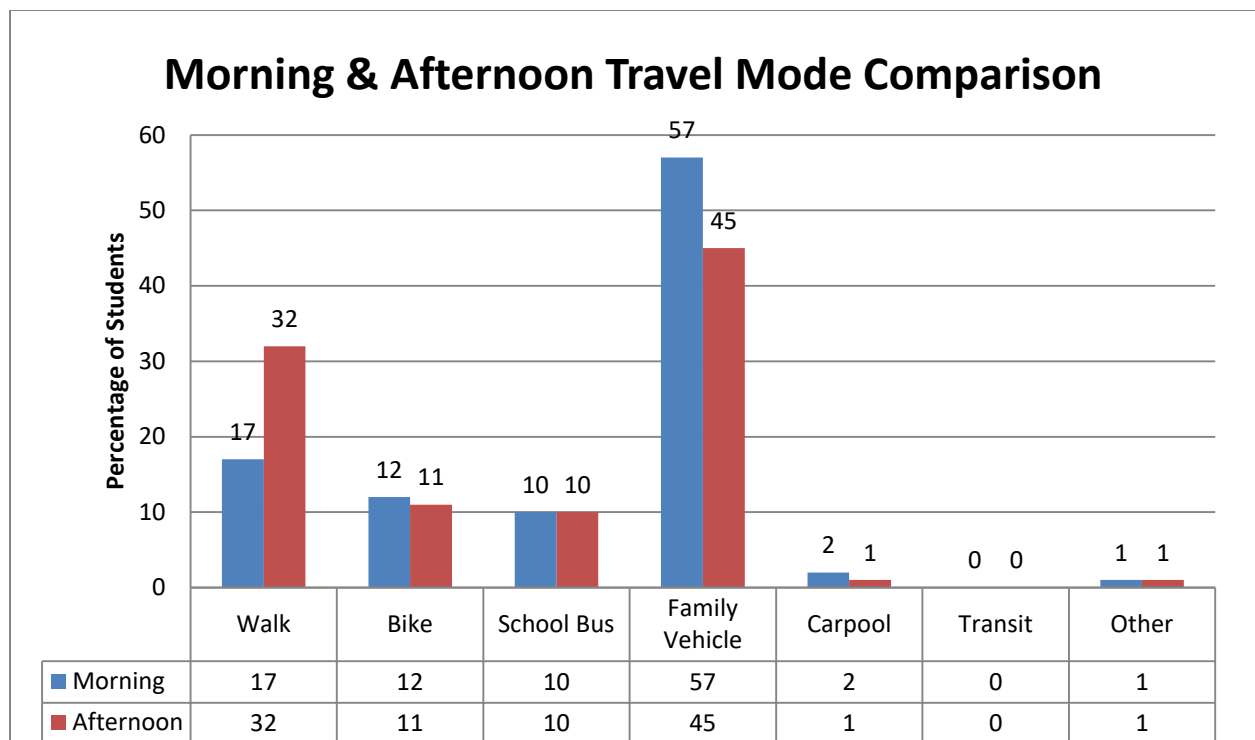

Key changes along the Prospect Avenue Corridor proposal suggest the addition of traffic calming measures. This would be accomplished through the removal of curbs, slower traffic speeds, and traffic calming islands along the roadway.

<sup>1</sup>"Bicycle Master Plan Study - Princeton, New Jersey." *Bicycle Master Plan Study - Princeton, New Jersey*. Princeton, 2015. Web. 2 June 2016.

Although students attending Riverside do not need to cross Rt. 27, all students will need to do so to attend the middle school and high school. Given the number of pedestrian crashes along Rt. 27, safety improvements along the corridor should also be evaluated.

## Travel Tallies

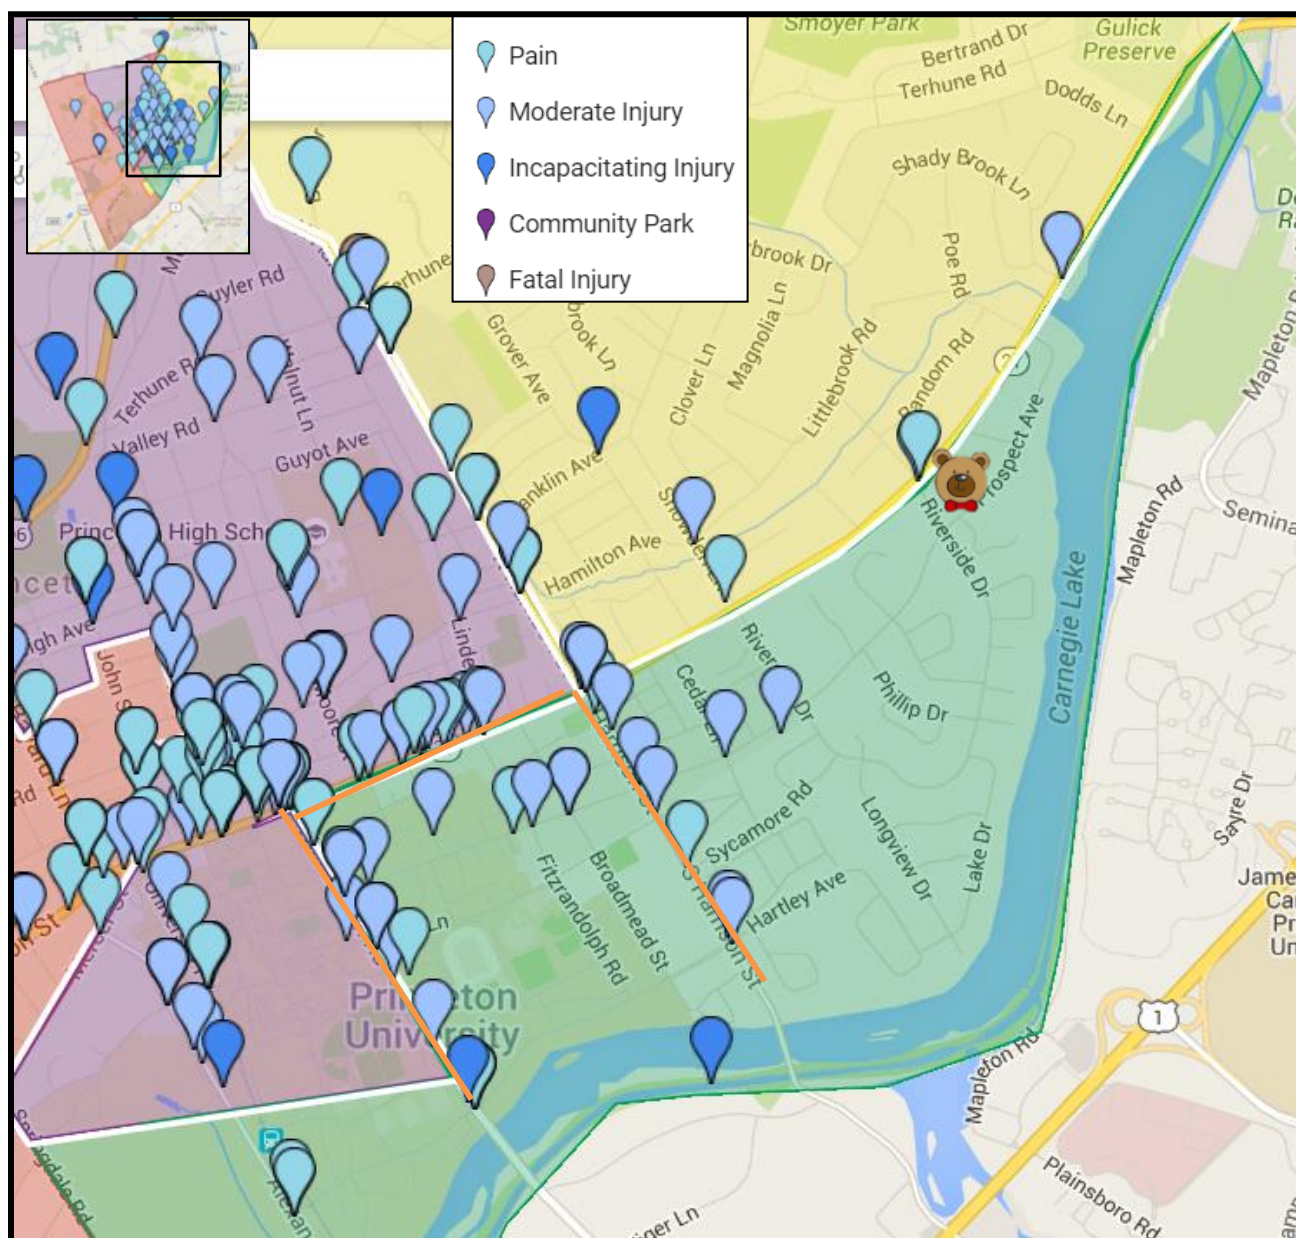

In April 2015, travel mode tallies were taken in classrooms at Riverside Elementary. For three days (Tuesday, Wednesday and Thursday) of one week the students were asked “How did you arrive at school today?” and “How do you plan to leave for home after school?” The students then raised their hands and were counted for each travel mode: walk, bike, school bus, carpool, take a family vehicle or other. Over the three days percent of students travel modes were recorded and the results can be found in the charts below.

The data shows that 10% of students take the bus to and from school. In the morning, there are 13% more students being driven in the family car than other modes of transit. In the afternoon, there are 12% fewer students taking the family vehicle home. This signifies that most of the morning students are being transported to the school by car, but taking other sustainable methods home. *Students are utilizing the walking and biking infrastructure in place; therefore it is imperative that the current infrastructure is upgraded and maintained for safety.* This also presents an educational and encouragement opportunity to reach out to parents who may drop off their child in a morning rush to work.

## Plan4Safety Pedestrian Crashes 2005-2015

Riverside is marked by the bear mascot icon within the green polygon catchment area. See Appendix A for details. Rt. 27, Harrison St and Washington Road (marked in orange lines on the map) are also high crash areas.

While Rt. 27 (Nassau St.) is the border for Riverside catchment, higher visibility at the intersection with Riverside Dr/Snowden Lane could be utilized to create a safer crossing.

## Goals and Actions

- Due to the already extensive sidewalk network, Greater Mercer TMA would like to see more students walk or bike to school. This could be achieved through physical street improvements that increase safety and accessibility.
- Traffic calming measures on Prospect Avenue as outlined in the Princeton Bicycle Master Plan should be pursued.
- Continue to host Walk and Bike to School events
- Increase all Safe Routes to School programming including Walking School Bus app use
- Assist Princeton in their Bicycle Master Plan implementation to increase the number of students who can safely bike to school.

## Recommended Infrastructure Improvements

\*Please note that good examples of current infrastructure are placed alongside potential improvements for reference.

Riverside Dr and Robert Rd- Level the steep curb grade, add ADA pad

Riverside Dr and Robert Rd- Add ADA pad, broken edging, landscaping issue

Riverside Drive and Sturgess Way- Repair cracked street and sidewalk, add ADA pad

Riverside Dr and Rt 27- Higher visibility signage

GOOD- Rt. 27 New sidewalks

Riverside Dr- Add ADA pad

GOOD- Prospect Ave No Idling Bus Zone

Prospect Ave- Fix cracked sidewalks, level the uneven pavement

Prospect Avenue – Uneven pavement

Prince William Court behind the school- Fix broken fence, potentially add a gate entrance

Heavily-used bicycle racks are candidates for covered bike parking

## Action Plan

This plan of action is intended to increase safety for students on their walk to and from school and when appropriate, encourage more students to walk. The table below identifies those actions, a responsible party for implementing them, a time frame, and a level of cost. Many actions identified as “short-term” and “low cost” can make a big difference in a short time and can be accomplished with the help of local partners.

Cost estimates are for planning purposes only – a professional engineer should prepare the actual estimates used for grant application. These estimates were prepared using the SRTS Implementation Cost sheet prepared in 2014 to support the grant application process.<sup>1</sup>

Engineering			
Action	Responsibility	Time Frame	Cost
Riverside Dr at Robert Rd curb leveling	Princeton	Medium	Est. \$7.5K
Riverside Dr and Robert Rd	Princeton	Medium	
Riverside Dr and Sturgess Way ADA pads	Princeton	Medium	
Snowden Lane mixed use path pavement cracks	Princeton	Medium	Est. \$250/sq ft
Riverside Dr Entrance-ADA pad	Princeton	Medium	
Prospect Ave sidewalk uneven pavement	Princeton	Medium	Est. \$6K
Prospect Ave near side of school sidewalk crack fixes	Princeton	Medium	Est. \$6K
Prince William Court- Fence in back entrance and possible pavement entrance	Princeton	Medium	Est. \$1K
Covered Bicycle Racks in front	Princeton	Medium	
Snowden Lane and Rollingsmeade St/Hamilton St. Intersection: Two crosswalks, ADA Pads	Princeton	Medium	Est. \$11K

<sup>1</sup> [http://www.saferoutesnj.org/wp-content/uploads/2013/07/srts\\_costs\\_NEW-FORMAT\\_FINAL.pdf](http://www.saferoutesnj.org/wp-content/uploads/2013/07/srts_costs_NEW-FORMAT_FINAL.pdf)

Education			
Action	Responsibility	Time Frame	Cost
Educate students, family members, bus drivers and school employees about drop-off/ pick up zones. Make sure everyone knows the best way to keep students safe and to quickly dismiss students from school.	School, School District	Short Term / Ongoing	Low
Increase community outreach about the health benefits of walking and biking to school.	School, PTO	Short Term	Low
Conduct community wide outreach about Safe Routes to School actions such as walking and biking safety.	School, GMTMA	Short Term/ Ongoing	Low
Establish a program to encourage students to walk and/or bike to school. Examples: Golden Sneaker Award, Walking Wednesday, Walking School Bus, Bike Train	School, GMTMA	Short Term/ Ongoing	Low
Educate community and responsible parties about snow removal on sidewalks near schools.	Public Works	Short Term/ Ongoing	Low

Encouragement			
Action	Responsibility	Time Frame	Cost
Establish main walking routes, safety corridors, walking school buses – safety in numbers.	School, PTO, GMTMA, Community Groups	Ongoing	Low
Conduct Student and Parent survey to see what actions and rewards could encourage them to walk to school more – and feel safer walking to school.	School, PTO, GMTMA	Short Term	Low

Enforcement			
Action	Responsibility	Time Frame	Cost

Enforce speed limits (in general and specifically in school zones), pedestrians walking safely, drivers watching for pedestrians especially at times when students are going to/ from school.	Police	Ongoing	Low / Medium
Enforce motorist compliance with crossing guard instructions	Police	Ongoing	Low / Medium
Enforce parking laws.	Police	Ongoing	Low / Medium
Conduct structured crosswalk enforcement campaign.	Police	Ongoing	Low / Medium
Increase law enforcement presence seen in the vicinity of Black and Rogers Elementary Schools.	Police	Ongoing	Low / Medium

Evaluation			
Action	Responsibility	Time Frame	Cost
Conduct periodic travel mode choice surveys (teacher tallies)	School	Annual	Low
Conduct bikeability audit of walking area	School, Township, GMTMA	Short Term	Low
Tour the areas with school, township and TMA personnel to identify areas for improvement	School, Township, GMTMA	Short Term	Low

\*Explanation of funding- Greater Mercer TMA is funded through the New Jersey Department of Transportation to offer advice and assistance in starting safe Routes to School programs and projects. Greater Mercer TMA can help with walk and bike to school events, walking school bus programs, youth bicycle and pedestrian education, school travel plans, and surveys that provide evaluation and feedback on local programs.

## Measuring Progress

### Task Force Timeline

Greater Mercer TMA will be in discussion with participating organizations about implementation progress. In particular, GMTMA will monitor the progress of the Princeton Bicycle Master Plan and continue to provide input.
